Argentina ips energy

ZÁRATE, Argentina, Mar 31 (IPS) - Three giant concrete cylinders with inflated membrane roofs are a strange sight in the industrial park of Zárate, a world of factories 90 kilometers from Buenos Aires that heavy trucks drive in and out of all day long. They are the heart of a plant that is about to start producing energy from agro-industrial waste, for the first time in Argentina.

IPS Energy filiale du Groupe IPS Spécialisée dans les études et installations photovoltaïques. Solution Résidentielle (Basse Tension), Solution Industrielle (Moyenne Tension), Pompage Solaire (Site isolé), production d"électricité.

Our main customers are handling the generation, transmission, and distribution tasks in the global energy supply industry, from relatively small utilities to large companies such as American Electric Power in the US, the largest utility company in North America.

"This is a double solution, because energy is generated at the same time the environmental problem of waste disposal is solved," Ezequiel Tamburrini, head of the biogas plant, tells IPS. "I would say that in Argentina there is no collective awareness of the environmental problem of waste generation, and most people do not know that energy ...

IPS ENERGY a récemment achevé l"installation d"une centrale photovoltaïque de 381 kWc pour notre client SNCI. Cette installation représente un énorme pas en avant dans la transition vers une énergie propre et renouvelable. L"énergie solaire est l"avenir, et nous sommes heureux de contribuer à la construction d"un monde plus respectueux ...

IPS Expands Depth in Canadian Market with Low-, Medium-, and High-voltage Electrical Equipment and Services. Greenville, SC, October 17, 2024 - Integrated Power Services (IPS), a world-class provider of electrical, ...

CIGRE Canada is an annual event that gathers the global electric community to increase the expertise of power system professionals. IPS USA"s Randy Norman and Jerry Day attended the event, sponsoring a booth and taking part in some other networking opportunities.

Al fondo, el pueblo de Olaroz, a 4000 metros de altura, con los cerros de la precordillera a sus espaldas. Frente al pueblo de la Puna argentina, está el salar del mismo nombre, en donde empresas extranjeras extraen litio. Sin embargo, las baterías de litio que hoy almacenan la energía solar del pueblo son importadas. Crédito: Daniel Gutman/IPS

Hoy, tuvimos el privilegio de recibir a iglesias de nuestra IPS reunidos en Villa Gob. Gálvez, todas con

el deseo de aprender y capacitarse sobre cómo ser una iglesia saludable. Cada uno de los asistentes recibió material valioso para llevar a sus congregaciones, con el propósito de formar y edificar a sus miembros en amor, unidad y ...

BUENOS AIRES, Dec 10 2020 (IPS) - The unprecedented growth of renewable energies in Argentina over the last three years has borne its greatest fruit: the Cauchari solar park, with nearly one million photovoltaic panels and 300 MW of installed power, which was connected to the national power grid on Sept. 26. The solar park is located in the extreme northwest province of ...

IPS was recognized as a representative vendor in the last Gartner Market guide. Fill out the form, get a copy of the report and learn more about industry trends in the field of Asset Performance Management (APM)

While IPS Asset Performance Management and Enterprise Asset Management solutions support primarily the daily or weekly operational decisions and actions to improve the reliability and availability of the assets, IPS® Asset Investment Planning software enhances complex, longer-term tactical and strategic decisions relating to the CAPEX/OPEX budget allocations and ...

AIP role in digital ecosystem. An AIP solution should utilize asset data collected from systems like NMM, APM, EAM, GIS, and OMS to predict areas of need. This, coupled with budgeting opportunities, enables the identification of the most viable investment options within a predetermined timeframe, typically spanning a

year or longer.

Argentina is pressing ahead on a $2.3 billion project to build a natural gas pipeline, a key for increasing production from the Vaca Muerta shale play to reduce costlier gas and diesel imports and wid. ... Global Energy Awards (GEA) World Petrochemical Conference (WPC) Global Power Markets (GPM) APPEC. London Energy Forum.

High inflation cannot only be traced to rising energy and food prices on the world market. Price trends in Argentina have always been extreme: Between 1980 and 2019, annual average inflation was a staggering 215.4 per cent. Economic crises, state bankruptcies, the decline in savings and real wage losses are everyday matters.

OLAROZ, Argentina, Dec 18 2019 (IPS) - The intense white brightness of the salt flats interrupts the arid monotony of the Puna in northwest Argentina, resembling postcards from the moon. Beneath its surface are concealed the world"s largest reserves of lithium, the key mineral in the transition to clean energy, the mining of which has triggered controversy.

BUENOS AIRES, Feb 24 2018 (IPS) - The Argentine population can now generate their own energy through clean and unconventional sources and incorporate surpluses into the public grid, thanks to a new law. This is an ...
