# Enery energy Colombia

What is Colombia's energy policy?
Since August 2022,Colombia's energy policy under President Gustavo Petro has called for increased development of renewable energy sources and reduced economic dependence on fossil fuels. The MME (Ministerio de Minas y Energía),formed in 1974,oversees Colombia's mining industry,mineral industry,and electricity sector.

How much money has Colombia committed to supporting different energy types?
In 2020-2021,in response to the COVID 19 pandemic,Colombia has committed at least USD 1.57 billionto supporting different energy types through new or amended policies,according to official government sources and other publicly available information. These public money commitments include:

What is the main source of electricity in Colombia?
Hydropoweris the main electricity source in Colombia,accounting for 67.24% of installed capacity in 2020,followed by thermal power stations (31.46%). Other minor contributors include biomass (0.85%),solar (0.34%) and wind (0.1%).

Why does Colombia have a poor energy sector?
Lack of accountabilityin the Colombian energy sector allows for problematic outcomes. The gaseous nature of coal deposits in Colombia has caused a large number of occupational accidents and deaths. Poor ventilation,poor worker training,and inadequate regulation are all factors in methane-related accidents.

Is Colombia a good country for hydroelectric power?
With high rainfall rates and a topography favorable for hydroelectric power projects,Colombia has developed hydro as its primary source of electricity,comprising two-thirds of installed capacity and electrical generation in 2020.

How much electricity does Colombia produce?
Colombia produced just over 69 TWhof electricity in 2020,fueled almost entirely by hydro power (71.89%) and fossil fuels (26.77%).

Omega Energy International S.A., con su sucursal en Colombia, Omega Energy Colombia, se dedica a la exploración y explotación de todo tipo de minerales e hidrocarburos y es operadora del bloque Llanos 21, adjudicado por la Agencia Nacional de Hidrocarburos.

In 2020-2021, in response to the COVID 19 pandemic, Colombia has committed at least USD 1.57 billion to supporting different energy types through new or amended policies, according to official government sources and other publicly available information. These public money commitments include: At least USD 613.74 million for unconditional fossil fuels through 16 ...
