Through the BOO mechanism, AMEA Power Ltd. was selected for the development of a 500-Megawatt (MW) Solar Photovoltaic (PV) facility in Aswan Governorate (hereafter referred to as the Project). AMEA Power Ltd. established the Abydos Solar Power company (ASP) (hereafter referred to as the Developer), a wholly owned

After the successful development of the 500MW Abydos Solar PV Project, AMEA Power has been awarded two new landmark renewable energy projects in Egypt. The first project, a new 1,000MW solar PV power plant with a 600MWh BESS in the Benban area, Aswan Governorate, will mark a historic milestone as the largest Solar PV and BESS project in Africa ...

In addition to the Egyptian developments, AMEA Power also has PPAs for a 50-MW wind project in Kenya, for a 30-MW solar project in Morocco, for a 50-MW solar project in Mali and for 120 MW of solar capacity in Chad. The company is also building two 50-MW solar PV plants and one 50-MW wind farm in Jordan and Togo.

Svalbard and Jan Mayen offer unrivaled opportunities to witness the raw power of nature in the High Arctic. From the abundant wildlife of Svalbard to the secluded volcanic landscape of Jan Mayen, visitors who undertake the journey to these remote destinations are rewarded with experiences that are as profound as they are unique.

To support this, the company operates a global warehousing hub in Dubai, alongside five regional warehousing centres, ensuring 24/7 remote support and delivery of spare parts within one business day.

In 2022 JA Solar and AMEA entered into a partnership to supply 560MW of high-efficiency modules for the Kom Ombo Abydos PV project in Egypt, with construction commencing in January 2023.
