

Accumulate energy for the development of cultural tourism

How can a community contribute to the development of tourism?

Agential communities can develop stronger participation in, and ownership of, tourism. Community capacity boosts cross-sectoral partnerships to pursue shared goals. To avoid tourism becoming an extractive industry, communities must develop capacity to participate and assume ownership of decision-making processes for it.

Is there a link between culture and tourism?

Culture and tourism have always been inextricably linked. Cultural sights, attractions and events provide an important motivation for travel, and travel in itself generates culture. But it is only in recent decades that the link between culture and tourism has been more explicitly identified as a specific form of consumption: cultural tourism.

What is cultural tourism research?

Cultural tourism research has also grown rapidly, particularly in fields such as cultural consumption, cultural motivations, heritage conservation, cultural tourism economics, anthropology and the relationship with the creative economy.

What motivates eco-cultural tourism?

The main motivation is observation, appreciation and contemplation as an experience within the natural and cultural environment. Table 1 shows the characteristics of eco-cultural tourism from its inception, together with the synergy of the United Nations resolution that emphasises poverty eradication and environmental protection through ecotourism.

What is the essence of eco-cultural tourism?
