

Activ energy battery Kenya

Are Activ energy batteries any good?

The death time for the Activ Energy batteries was closer to the Duracell than the dim time, but the Aldi batteries were in pretty bad shape on the last day, moreso than the Duracell. If you're looking for cheap batteries, Activ Energy Super Alkaline Batteries are definitely cheap.

Are Activ energy Super alkaline batteries cheap?

If you're looking for cheap batteries, Activ Energy Super Alkaline Batteries are definitely cheap. They are priced competitively compared to other budget batteries, especially when you take into account the fact that you don't have to buy a huge pack to get a low per-battery price.

Do Aldi batteries come with Activ energy?

Side note: Aldi sometimes packs batteries in with products that need them, and in those instances those batteries are virtually always Activ Energy. Aldi batteries come in your typical battery packaging: clear plastic front, paper back.

Where can I buy AA batteries?

Generic batteries are generally cheaper. Amazon sells generic AA batteries for about 30 cents a battery, while Rayovac, a budget battery maker, sells batteries that can be found in Walmart for as cheap as 24 cents a battery sometimes. Aldi also sells batteries. They're almost always found in the store's checkout aisle, under the Activ Energy label.

Who are associated battery manufacturers?

Reliable, innovative batteries. Together for the long run. ABM (Associated Battery Manufacturers) is the only battery manufacturing company in Kenya, and the largest in East and Central Africa. We produce both vented and maintenance free batteries for automotive and solar use.
