

Aerospace battery systems Somalia

Harness the Power of the EP Systems Battery. A greener aviation paradigm is fast approaching: One that moves from combustion-based technologies to electric-based solutions. As a recognized leader in energy storage systems, EP Systems is at the forefront of this evolution.

RHA and aerospace-grade components ensure system reliability, safety & traceability Thorough test & verification in aerospace conditions at both cell & pack level ensure functionality Inventus Power battery packs (i.e. CWB) have been tested under harsh atmospheric conditions are a strong base to modify for aerospace applications
