NEOSTAR 2S+ Doppelglas 440W-470W mit einem PV-Wirkungsgrad von 23,6 % bietet eine höhere Leistung, einen besseren Temperaturkoeffizienten und niedrigere BOS-Kosten. Schauen Sie rein.

aico energy solar eolico hydropower solutions s.a. dedicada a actividades de operaciÓn de instalaciones de generaciÓn de energÍa elÉctrica, por diversos medios: tÉrmica (turbina de gas o diesel), nuclear, hidroelÉctrica, solar, mareal y de otros tipos incluso de energÍa renovable. ició sus actividades comerciales el 30/11/2020 como sociedades.

JPB Solar Energy Cyprus offers you the possibility to gain from cheaper electricity and buy and pay for the photovoltaic system after 3 years at a discount of 15%. After those 3 years you can decide every year to buy the system at a compounded discount of 5% annually. So, after 4 years you pay 80% of the quotation amount, after 5 years 75% of the quotation amount, etc.

AICO SA has a special department for studies and constructions, consisting of specialized engineers, Moreover knowing the ever increasing demands for energy saving systems, always the best technological solutions. AICO SA maintains a research and development department aiming at the constant improvement of its services and products.

Aico solar Cyprus

In Cyprus, a solar system typically pays for itself within 2 to 5 years, depending on the size of the system, electricity consumption, and government subsidies. Thanks to the high number of sunshine hours and the ability to save up to 80% on energy costs, the profitability is particularly high. Additional subsidies, such as up to EUR1,500 for 4 ...
