

Alternative energy Montenegro

How many consecutive days has Montenegro produced electricity exclusively from renewable sources?

You have recently shared the information that Montenegro has for the first time ever produced electricity for 10 consecutive days exclusively from renewable energy sources. How was that achieved?

Does Montenegro have an energy efficient home?

In 2023, the project Energy Efficient Home continued to support households to purchase heat pumps with interest-free loans. Montenegro is still finalizing its draft NECP, which must harmonize the 2030 energy efficiency targets with the 2030 targets set by the Energy Community.

Which energy projects have been subjected to an EIA in Montenegro?

Montenegro has not provided a list of energy projects that underwent screening and were subjected to an EIA. The development of the EIA, which should include an appropriate assessment for the Komarnica hydropower project, located within a candidate Emerald Site and the Dragisnica and Komarnica Nature Park, was delayed.

Does Montenegro have a gas market?

Montenegro does not have a gas market. REMIT Regulation (EU) 1227/2011 is in place. Despite the non-existing gas market, Montenegro adopted the supply rules for natural gas. Initially scheduled for 2019, the adoption of the new Law on Cross-Border Energy Infrastructure projects, intended to transpose Regulation (EU) 347/2013 is pending.

How stable is Montenegro's wind farm?

Over the 10-day fossil fuel free period we discussed, the Krnovo wind farm contributed 28% of Montenegro's electricity generation and the system was stable. According to our experience in the past two years or so, the forecasting error on the day-ahead level is no greater than 5%.

Who supplies the retail market in Montenegro?

The retail market in Montenegro is fully supplied by EPCG, even though several other suppliers are licensed. Furthermore, EPCG is acting as supplier of last resort and supplier of vulnerable customers. These obligations were established through transparent tendering procedures.
