In Illinois, community solar customers can subscribe for up to 200% of their last 12 months of electricity usage. Energy generated by the community solar project flows to ComEd's grid and becomes part of the overall energy supply. The 160 active community solar sites in ComEd's 11,400-square-mile region serve more than 30,000 customers.

As a major solar distributor we sell products to both retailers (who resell our products) and end-users. We rely on our retailers to provide our products in small quantities to individual customers. Creating quotes allows us to provide the best pricing to each user group without competing with our larger retail customers.
