

Ampyr energy Mauritania

What is ampyr energy?

AMPYR Energy has been created by AGP's highly experienced partners to help accelerate the transition to a zero-carbon future and to realise the huge potential of that shift - for investors, for power users and for communities. 01 Presently developing a portfolio of over 12GW of renewable energy and battery storage assets globally

Who are ampyr & AGP sustainable real assets?

We're partners for the long-term, with the backing of AGP Sustainable Real Assets ('AGP'), a global investor in sustainable infrastructure and technologies. AMPYR, the energy division of AGP, is a leading player in the global energy transition. We combine global expertise with local capability to unlock the potential of onsite energy.

Does ampyr Energy USA have a power purchase agreement with Duke Energy?

Great news from AMPYR Energy USA (AEUSA), which has signed long-term power purchase agreements (PPAs) with Duke Energy for two projects - one including energy storage - totaling 195 peak megawatts (MWp) of utility-scale solar energy generation in South Carolina.

How many homes will ampyr energy supply in South Carolina?

Once operational, the projects will supply electricity to power about 30,000 homes in South Carolina. "AMPYR Energy USA is proud to be a part of the clean energy transition and contributing toward the economic growth of the communities in which we operate," said Sumeet Bidani, Chief Development Officer of AEUSA.

How can ampyr benefit from a 100% green energy future?

But the removal of renewable subsidies and the move to 'merchant' price exposure means you need a unique kind of partner with the skillset to operate and optimise this 'new normal' to benefit from a 100% green energy future. Fortunately, AMPYR is an energy company created specifically to work within a competitive renewables world.

Is Mauritania poised to become a major supplier of natural gas?

Mauritania is poised to become a significant global producer of natural gas and a leading player in Africa. With estimated gas reserves of 1400 billion cubic meters, the country has the potential to become a major supplier in the global market.
