Who is NEXTracker?

With more than 100 gigawatts of smart solar trackers installed around the world, no one has delivered more systems than Nextracker. Wherever we go, we offer training, invest in regional industry, and strive for a small carbon footprint. To learn more about our global reach and local impact, check out our Projects page.

Why did NEXTracker invest in local manufacturing infrastructure in 2021?

Nextracker began investing in local manufacturing infrastructure in 2021 to establish a secure supply chain following disruptions during the global pandemic. Together with its manufacturing partners, the company has now expanded or opened more than 25 U.S. factories with over 30 GW of annual capacity.

Nextracker says it has shipped and delivered the industry's first U.S.-manufactured solar trackers in the United States, which are expected to achieve 100% ...

Nextracker already maintains value-added connectivity with a significant portion of our installed base and is striving to achieve 100% coverage. As customers increasingly see the benefits of our data-driven analytics, in terms of production yield enhancement, lower O& M costs and the like, they overcome their concerns and embrace the idea ...

100 GW shipped, enough to power the peak load of "two Californias"! Nextracker Inc. today celebrated a first 100 GW milestone for a U.S. solar company, a win for our entire industry and validation solar has come of age. In this video we also covered that there are about 7,000 solar and solar+storage projects in the US queue, with total capacity of about 1500 GW - more than ...

Nextracker CEO Dan Shugar appeared on the Factor This! podcast last year, where he discussed his journey from an engineer in the solar group at Pacific Gas & Electric in ...

New Al Kahfah Solar Power Plant at 1.17 GW to play key role in Badeel and ACWA Power efforts to advance Saudi National Renewable Energy Program NX Horizon-XTR (TM) all-terrain solar tracker systems to deliver enhanced yield while minimizing environmental impact on project site The Al Kahfah project reinforces Nextracker's commitment to the MEIA region ...

Nextracker launched a new solar tracker foundation system during Q3 2024, at RE+ last month in Anaheim,

California, US. Image: PV Tech. For a seventh consecutive quarter, US solar PV tracker ...

Solar tracker supplier Nextracker has opened a solar tracker research and development (R& D) facility in Hyderabad, India. The facility, dubbed the Center for Solar Excellence, spans 13 acres and ...

The First 100% US-Made Solar Trackers. Nextracker has achieved what many thought would take years ... the production and delivery of solar trackers with 100% domestic content. This initiative was spurred by the IRA, which has provided substantial incentives for renewable energy projects that utilize domestically sourced materials. The first ...

Nextracker excels in addressing the geotechnical challenges that face solar projects. Our suite of foundation solutions are designed to handle every soil type - from hard rock to expansive soils - ensuring reliable performance. Advanced engineering and innovative design mitigates risk and assure successful solar projects across all terrains.

Nextracker Delivers First 100% Domestic Content Solar Trackers to U.S. Market. Company Sets New Standard for American Manufacturing, Job Creation, and Supply Chain Resilience

FREMONT, Calif., December 10, 2024--Nextracker (Nasdaq: NXT), a global leader in solar tracker technology, today announced it has shipped and delivered the industry's first U.S. ...

A: Nextracker uses anemometers around a site which goes to stow when the wind speed threshold is measured. We account for the dynamic loads at the peak wind speeds and stow angle for that site. Q: As solar plants move to more northern climates and snow loading becomes more of a factor, would Nextracker comment on snow loading considerations?

3 · Dive into the transformative world of solar energy with Howard Wenger, President of Nextracker, in the latest episode of The Solar Journey with Dr. Torsten Brammer. With nearly 40 years of experience, Howard has played a pivotal role in shaping the solar industry, from co-authoring net metering legislation to leading groundbreaking initiatives at SunPower, ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

Due to the increasing demand for renewable energy solutions, solar power capacity worldwide is projected to triple by 2033, according to Wood Mackenzie. NEXTracker (NASDAQ:NXT), a provider of ...

The Bannerton Solar Farm is equipped with Nextracker's TrueCapture technology, an advanced tracking algorithm which uses precise site- and installation-specific information to optimise the performance of each independent tracker row. While onsite, the crew witnessed TrueCapture in action as the smart control system optimized the independent ...
