

Anguilla naked energy

How much does energy cost in Anguilla?

This profile provides a snapshot of the energy landscape of Anguilla, a British overseas territory in the Caribbean. Anguilla's residential utility rates start at \$0.16 per kilowatt-hour (kWh), below the Caribbean regional average of \$0.33/kWh.

Does Anguilla have energy consumption by sector?

Energy consumption by sector is unknown. The draft CCP facilitates the transition of Anguilla to an energy independent, climate resilient, energy-efficient, low-carbon economy.

How much electricity does ANGLEC generate?

ANGLEC has an installed generation capacity of 33 megawatts (MW), a total annual consumption of 88.56 gigawatt-hours (GWh), peak demand of 13.99 MW, and 9.78% transmission and distribution losses, which translates to 8.57 GWh. In the past, ANGLEC generated electricity primarily from less-efficient high-speed diesel units.
