To store lithium batteries in a warehouse, keep them in a cool, dry environment with temperatures between 32°F and 77°F (0°C to 25°C). Ensure they are charged to about 40-60% capacity, and store them upright in a secure location away from direct sunlight and moisture. Regularly inspect the batteries for any signs of damage or swelling. Best Practices for Storing

Seven years later our business evolved and required us more cold storage space, 8500-metric tons (8500 pallets). So in 2017 in response to our customers needs, we started to build a bigger and modern cold storage facility in Kawit Cavite, thus the beginning of ...
