

Antigua and Barbuda soltaro aio2

Can soltaro aio2 be used on-grid?

These batteries are All-in-one Energy Storage Systems (ESS) designed to cater to both on-grid and off-grid applications. The Soltaro AIO2 can be used both on-grid and off-grid as per their datasheet. It is also capable of being used for an on-grid battery backup.

What is a soltaro aio2 battery storage system?

The Soltaro AIO2 battery storage system is designed to be wall mounted, look good and take up less space in your home. Our contemporary designs can be showcased and will be something you want to show off, not hide away (unlike some systems we could mention).

What is a soltaro battery?

Soltaro offers two flagship battery products in Australia, the AIO2 and the newer AIO3. Both series feature LiFePO4 (LFP) chemistry with over 10,000 cycle life, ensuring long-term durability. These batteries are All-in-one Energy Storage Systems (ESS) designed to cater to both on-grid and off-grid applications.

Why should you choose soltaro aio2?

As the AIO2 incorporates MPPT technology, it will always allow you to get the best out of your solar PV system. When grid-connected, or connected to a local micro-grid, the Soltaro AIO2 can be connected in parallel. This allows your system to be modular and expandable as your energy storage needs change. The batteries are also modular.

What is aio2 ESS home solar battery system?

The AIO2 ESS home solar battery system from Soltaro has truly set a new standard for solar battery solutions. With its cutting-edge technology and innovative design, it offers leading energy performance and efficiency to homeowners with solar panels.

Can a soltaro aio2 be connected in parallel?

When grid-connected, or connected to a local micro-grid, the Soltaro AIO2 can be connected in parallel. This allows your system to be modular and expandable as your energy storage needs change. The batteries are also modular. You can add more battery storage at any time to expand your storage capacity should your needs change.

By adding a Solar Battery such as the Soltaro AIO2, you can effectively manage your stored excess solar to power your home & devices. And as the Soltaro AIO range comes with QSmart software as standard. You'll be able to get the best out of your solar and battery, making even bigger changes to lower your household energy spend.
