

Aprovis energy systems Papua New Guinea

Who is aprovis Energy Systems GmbH?

Aprovis Energy Systems GmbH - Specialist In Exhaust Gas And Gas Treatment Technology. In a very short space of time, APROVIS has established itself as an innovative energy company on both the national and the international market. Our expertise lies in exhaust gas and gas treatment technology.

What is aprovis high temperature heat exchanger & aprovis gland steam condenser?

APROVIS high-temperature heat exchangers use the heat and energy from flue gases from industrial processes. APROVIS gland steam condensers are used for large steam turbines to recover the gland steam and energy. System solutions from APROVIS APROVIS is a specialist for system solutions.

What products does aprovis offer?

APROVIS offers a wide range of products for gas and exhaust gas technology as well as special applications. Gas technology APROVIS FriCon cools and dehumidifies process gases of different types like from biogas plants, sewage treatment plants, landfills or other sources.

What is a aprovis heat recovery steam generator?

APROVIS heat recovery steam generators produce saturated steam up to 25 bar with energy from the waste gas of combined heat and power plants or other sources. APROVIS silencers are compact and offer optimum sound insulation. They cover low to high frequency ranges.

What are aprovis process gas heat exchangers?

APROVIS process gas heat exchangers are for cooling or heating gases from different sources. Applications from low to high temperatures and pressures up to 160 bar. Exhaust gas technology APROVIS exhaust gas heat exchangers use the waste heat from combined heat and power plants or other sources of flue gas to produce hot or overheated water.

What makes aprovis a good company?

APROVIS's performance is based on a strong foundation: its employees. These motivated specialists include electrical engineers (who make up 15% of our workforce), designers (20%), engineers (40%) and order processing staff (15%).

Effizient auf langer strecke Die Pfuhlschnepfe fliegt bis zu 12.000 km ohne Unterbrechung - Wir bei APROVIS setzen bei allem was wir tun auf effizienten Ressourceneinsatz. Ins Ziel mit BETTER PERFORMANCE Triathleten sind in mehreren Disziplinen Profis - Auch wir bei APROVIS lieben sportliche Herausforderungen und bieten BETTER PERFORMANCE für ...

APROVIS: Sobre nosotros Somos especialistas en las tecnologías de tratamiento de gases y de gases de escape. APROVIS se ha establecido en muy poco tiempo en el mercado nacional e internacional como empresa energética altamente innovadora. Nuestra competencia clave es

APROVIS es sinónimo de vocación de servicio. Ofrecemos la máxima calidad en todo lo que hacemos, incluido el asesoramiento personalizado. Eso es lo que significa APROVIS 360. El equipo de APROVIS se compromete con usted y le acompaña en todo momento, desde la oferta hasta el suministro y la puesta en servicio... y más allá.

At APROVIS, we strive to set new records for silencers and catalytic converters. EFFICIENT OVER LONG DISTANCES The bar-tailed godwit flies up to 12,000 km without stopping - we at APROVIS focus on resource efficiency in ...

APROVIS 360 Nous sommes totalement là pour vous Pour APROVIS, le service est au premier plan. Notre qualité est optimale, cela implique une attention individuelle. C'est APROVIS 360. Chez APROVIS, vous serez accompagné par une équipe permanente, de l'offre à la

Our expertise lies in exhaust gas and gas treatment technology. We are qualified specialists in our field - whether you need specific individual components or compact system solutions. Since it was established in the year 2000, ...

APROVIS"s strength lies in the fact that it generates system solutions. We view the exhaust gas section and gas treatment as complex energy cycles where every detail and every process step is important. We operate in a market that is placing ever-greater demands on us in terms of noise and pollutant emissions.

Steam generators from APROVIS use the energy from combined heat and power plants" exhaust gas to generate steam. As steam generator systems, they are energy efficient in operation and can be put to universal use. The range for ...

APROVIS 360 Sempre a vostra disposizione APROVIS considera l'assistenza un servizio di primaria importanza. Garantiamo la massima qualità, offrendo anche un servizio di supervisione personalizzato,

che prende il nome di APROVIS 360. In APROVIS venite affidati a un team fisso,

Zusätzliche Isolierung: Bei Bedarf isoliert Aprovis den Abgaswärmetauscher für den Betreiber. Damit keine Wärme verloren geht und ein Berühren der Oberfläche problemlos ist. Wärmenutzung: Auf Anfrage verbindet Aprovis zur Wärmenutzung die Wasserseite des Abgaswärmetauschers mit der Kühlwasserseite des Motors zu einer Einheit. Das geschieht ...

APROVIS supplied the silencers for a STOR plant in the north of England with ten engines that had an output of 2 MW each within a very short space of time. STOR (short-term operating reserve) plants are mostly low-noise plants where a great deal of importance is attached to reducing noise emissions.

Why choose APROVIS? We're at your service. Markus Heusch and Henning Adelt, APROVIS's Managing Directors APROVIS is an owner-managed, medium-sized company with an export share of more than 50%. We have an extensive ...

APROVIS coordinates the catalytic converters with other components in the exhaust gas section to generate a high-performance system that runs reliably and reduces the impact on the environment as much as possible. APROVIS is the manufacturer of the entire product range, which keeps the necessary costs in check and still guarantees the best service.

Le ofrecemos las soluciones APROVIS Pensamos en clave de sistema y suministramos componentes e instalaciones que funcionan perfectamente coordinados. Consulte a nuestros especialistas para encontrar la solución perfecta para usted. Soluciones integrales de APROVIS Construimos sistemas bien coordinados a partir

Certifications APROVIS manufactures products and builds plants in line with international guidelines and safety standards. We focus entirely on your needs and reliably implement even complex regulations. We respond flexibly to changes on the market to allow you to remain

APROVIS combines the individual components to form a comprehensive system within the exhaust gas section. In detail, this means that: Silencers and SCR catalytic converters are combined so the noise and emission limits are met even in a reduced installation space.

NORTEAMÉRICA / MÉXICO GENERADOR DE VAPOR PARA AUMENTAR LA EFICIENCIA EN LA OBTENCIÓN DE VAPOR Para este proyecto APROVIS suministró un generador de vapor doble y otro simple a un fabricante mexicano de la industria alimentaria. El generador de vapor
