Pioneering solar-powered vehicle. The Quiet Achiever left Perth's Scarborough Beach on 19 December 1982. The solar vehicle arrived at the Sydney Opera House on 7 January 1983. Its average speed was about 30 kilometres an ...

To be eligible for STCs, your system must be installed by a Solar Accreditation Australia accredited installer. The solar panels and inverter must be on the lists of Clean Energy Council approved modules and inverters. The value of STCs you receive is based on the estimated amount of electricity your solar system will generate until 2030.

Sunraysia Solar Farm, Australia John Laing acquired a 90.1 per cent interest in Sunraysia Solar Farm in October 2018. Sunraysia has total capacity of 255MW and is located in New South Wales. The asset has offtake agreements with the University of New South Wales and AGL.

NEW EV vs SOLAR. This will come as a shock to many, but rooftop solar and a backup home battery is significantly more effective climate action, compared to buying an EV. If you buy an EV, it comes wrapped in green virtue, but it's not very effective at reducing CO2. Rooftop solar and a home backup battery system is the exact opposite.

Building a business to facilitate the transition of power generation from coal/oil/gas to renewables.
