

Axiom exergy Malawi

RICHMOND, Calif., May 9, 2018 /PRNewswire/ -- Continuing to bring flexible energy storage solutions to grocery stores and cold storage facilities, Axiom Exergy has raised \$7.6 million in Series A ...

An industry first, the Refrigeration Battery makes it possible for supermarkets, cold-storage facilities, and food processors to intelligently store and deploy refrigeration. The battery plugs into your refrigeration system, just like a display case. It stores thermal energy produced by your refrigeration system during off-peak hours, and deploys it during on-peak hours. As a result ...

Axiom Exergy's president and co-founder Amrit Robbins spoke of "refrigeration batteries" as an energy storage solution for supermarkets. "We take a fundamentally different approach -- rather than ...

However, exergy is a well-defined concept in thermodynamics, and understanding it is the first step to understanding why our CTO and co-founder, Anthony Diamond, decided on the name Axiom Exergy. Exergy takes its basis from the Second Law of Thermodynamics, which states that the total disorder of an isolated system will tend to ...

The Axiom Exergy Refrigeration Battery stores cooling instead of electricity to help businesses manage their energy usage, reduce demand charges on their electric bills, and prevent food spoilage.
