

Axis energy Austria

Who is axis energy?

Axis Energy is a renewable energy company who has developed a novel type of modular turbine that has applications in both distributed wind energy and marine energy. Our turbines can either be used stand-alone or in hybrid micro-grids encompassing solar energy, battery storage and smart energy management systems.

What services does Axis offer?

Axis provides a full range of pumping services, including remedial cementing and acidizing, delivered by experienced crews operating highly reliable, purpose-built equipment. Our modern oilfield rental equipment includes high-pressure blowout preventers, reverse units, and hydraulic catwalks and power swivels.

What Rig Services does Axis offer?

Axis provides full rig packages and a comprehensive range of well services, from 24-hour frac plug drill outs to daylight workovers to plugging and abandonment. Axis is the country's leading P&A provider, pairing fully wrapped rig packages and highly experienced crews with the expertise to solve your toughest downhole challenges.

What is axis well service rig?

Axis is pioneering a new generation of well service rigs engineered to deliver safer, more efficient, more reliable operations with fewer emissions. Axis provides full rig packages and a comprehensive range of well services, from 24-hour frac plug drill outs to daylight workovers to plugging and abandonment.
