AC-powered phones, cordless telephones and charging/base stations, home security systems, medical monitoring devices and other equipment will not run on your home phone backup battery. Backup batteries are expected to last at least 8 hours on standby power. The backup battery should give you approximately 6 hours of talk time.

Comparatively, partial-home battery backup systems usually store around 10 to 15 kWh. Given that power outages are infrequent in most parts of the country, a partial-home battery backup system is generally all you'll need. But, if your utility isn't always reliable for power, whole-home battery backup may be the way to go.
