Belgium's cumulative installed solar capacity surpassed 10 GW at the end of 2023. Analysts have said 337 MW of new solar was likely added in the first half of this year, with the residential market remaining relatively stable. ...

Hi Guys I live in Wallonia, and got some quotes for solar panels. The best one seems to be 9000 euros for 16 x Hyundai Full Black 435W panels and a Huawei Sun 2000 4.6KTL L1 inverter - the installer in question has a ton of good reviews.

As was common last year in the global solar sector, 2023 proved to be a record-breaking year for Belgium's solar industry. According to the Belgian energy association, Energie Commune, the country installed 1.8GW of new solar capacity last year, breaking the record for annual installations set in 2022 with 1.3GW of capacity
