

Bns energy storage equipment

What does an energy storage expert do?

Our energy storage experts work with manufacturers, utilities, project developers, communities and regulators to identify, evaluate, test and certify systems that will integrate seamlessly with today's grid, while planning for tomorrow.

What is the BNEF energy storage tier 1 list?

The BNEF Energy Storage Tier 1 list is based on BNEF's database of energy storage assets, which is mainly sourced from public information in the form of press releases and filings. Data on large projects is likely to be checked against several different sources.

Does bloombergnef have a tiering system for stationary energy storage products?

Some clarifications added but no changes to methodology. BloombergNEF maintains a tiering system for stationary energy storage products. Based on deployment over the preceding two years, this system is designed to create a transparent differentiation between the hundreds of manufacturers in the market.
