

Bonaire Sint Eustatius and Saba best wind turbine for home

Are Bonaire and Sint-Eustatius honoured?

Late last week, the good news was received that the project proposals of Bonaire, Sint-Eustatius and Saba were honoured. They are the only islands in the Caribbean whose proposals made it through the selection.

How much does energy cost in Bonaire?

This profile provides a snapshot of the energy landscape of Bonaire, a special municipality of the Kingdom of the Netherlands located on the coast of Venezuela. Bonaire's utility rates are approximately \$0.35 per kilowatt-hour (kWh), above the Caribbean regional average of \$0.33/kWh.

What makes a good place for wind power development?

The combination of both high power density and low seasonal variation in wind power make these locations well placed for future wind power development. Areas that combine low seasonal variability and high mean power generation have a significant advantage for wind power over those that only place highly in one of the two factors.

Does Bonaire have a utility company?

The utility company for Bonaire is Water-En Energiebedrijf Bonaire N.V. (WEB), which supplies both water and electricity to the island. WEB is a government-owned entity and is strictly a distribution utility, owning no generation of its own.

Where should wind power be generated?

The study identified the American mid-west, Australia, Argentina, Central Asia and South Africa as the most ideal locations for generating wind power. The combination of both high power density and low seasonal variation in wind power make these locations well placed for future wind power development.

Does Bonaire have a regulated electricity sector?

In recent years, the Ministry of Economic Affairs in the Netherlands has been active in reforming the regulation of the electricity sector in Bonaire, both in terms of utility regulation and expanding generator access.¹³
