

Does Brunei Darussalam have a high rate of electrification?

According to the World Energy Outlook which published in 2016 by IEA, Brunei Darussalam has achieved 100% rate of electrification with only 6% of transmission loss. According to Brunei Energy White Paper, the country is planning to cover 10% (954 GWh) of its electricity consumption from renewable energy by the year of 2035.

Will Brunei cover 10% of its electricity consumption by 2035?

According to Brunei Energy White Paper, the country is planning to cover 10% (954 GWh) of its electricity consumption from renewable energy by the year of 2035. The document sets the ground for the renewable energy policy.

What is the energy supply of Brunei Darussalam?

In 2015, the total primary energy supply (TPES) of the country for both energy sources was 3.26 million tons of oil equivalent (Mtoe) in total, with 3.07 Mtoe or 94.3% from natural gas (Table 3.1). Brunei Darussalam has 922 MW of installed capacity in power generation of public utilities, including a solar photovoltaic (PV) at 1.2 MW.

How can Brunei reduce energy consumption?

Brunei has implemented the National Appliance Standards and Labelling Regulation, which aims at reducing domestic energy consumption in order to enable higher exports of gas. The Energy Efficiency and Conservation Program envisages the reduction of energy use by 45% by 2035 based in 2005 level

Why is Brunei Darussalam independent from energy imports?

The country is independent from energy import, due to its vast domestically available oil and gas reserves. Brunei Darussalam has the ninth largest Liquefied Natural Gas (LNG) reserve in the world as well as the fourth largest oil producer in South East Asia region.

Does Brunei Darussalam have a minimum energy performance standard?

This standard would require manufacturers, suppliers, wholesalers, and retailers in Brunei Darussalam to import and sell electrical appliances that meet consumers' Minimum Energy Performance Standards.

The Department of Energy (Malay: Jabatan Tenaga), previously known as the Ministry of Energy and Ministry of Energy, Manpower and Industry, is a cabinet-level ministry in the Government of Brunei which oversees the country's energy industry. The department is led by the incumbent Deputy Minister of Energy, Mohammad Azmi bin Mohd Hanifah. The ministry is headquartered in the capi...
