For more information, select the country you live in at the top of this page. Buy a power plug (travel) adapter. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection ...

This was the first time a democratic handover of power occurred in Burkina Faso's history since it gained independence in 1960. As a result of the two military takeovers in 2022 and resultant tensions with regional bloc ECOWAS, Burkina Faso (and Mali and Niger) announced in January 2024 their withdrawal from ECOWAS with immediate effect. ...

SONABEL, Burkina Faso's national electricity company, uses thermal (heavy fuel oil) and hydropower to cover an estimated 60% of the country's current electricity capacity. The rest is imported from Côte d'Ivoire and Ghana, as part of the West African Power Pool (WAPP). Over the past decade, electricity demand has increased by about 13%, while supply has increased by ...

State-owned power plants (Burkina Faso, Morocco) clearly seem to favor social acceptance, with such plants being sources of national pride, often seen as government or country choices, and the nation in question ultimately feeling pride of ownership of this rewarding energy technology. From a practical point of view, we note that capacity ...
