How much do TransAlta renewables shares cost?

TransAlta Renewables' shareholders can opt for 1.0337 common shares of TransAlta or \$13 in cash for each share outstanding, representing an 18.3-per-cent premium based on the closing price of Renewables shares on the Toronto Stock Exchange on Monday.

Does TransAlta own RNW?

Under the Arrangement, TransAlta acquired all of the outstanding common shares of RNW (each, a "RNW Share") not already owned, directly or indirectly, by TransAlta and certain of its affiliates, resulting in RNW becoming a wholly owned subsidiary of TransAlta.

Does TransAlta have a wind farm?

A TransAlta wind farm is shown near Pincher Creek, Alta., Wednesday, March 9, 2016. CALGARY - TransAlta Corp. says it has signed an agreement to acquire the minority stake in TransAlta Renewables Inc. that it does not already own in a deal it says will help simplify its structure and improve its strategic position.

Who is TransAlta Renewables Inc?

About TransAlta Renewables Inc. TransAlta Renewables Inc. is among the largest of any publicly traded renewable independent power producers (IPP) in Canada.

Does TransAlta own a minority stake?

CALGARY - TransAlta Corp. says it has signed an agreement to acquire the minority stake in TransAlta Renewables Inc. that it does not already own in a deal it says will help simplify its structure and improve its strategic position. The deal would reverse its decision to spin off TransAlta Renewables in 2013.

What happened to TransAlta shares?

Common shares of TransAlta (the "TransAlta Shares") will continue to trade on both the New York Stock Exchange and the Toronto Stock Exchange under the symbols "TAC" and "TA", respectively. As a result of the Arrangement, certain RNW directors have resigned, and TransAlta has appointed two of its employees to serve on the board of directors of RNW.

Renewable Energy Credits (RECs) represent 1MW of electricity produced from a renewable energy source such as wind, solar, or hydro. When you buy RECs equivalent to your business' energy consumption, you offset the power you've used from traditional energy sources by funding green generators that supply the electricity grid.
