21 century - Chromagen Midea 280L and service totally poor Chromagen Midea 280L - my system was installed on July 28,2020 by Metricon authorized team. From the beginning I reported a issue to Chromagen with level and as well display issues. Problem with reading data from the display - totally invisible during the day time.

At the beginning of the year the Italian Ariston Group completed its acquisition of the Israeli solar thermal system pioneer manufacturer Chromagen Hot Water Solutions. According to a press release published on 5 January 2022, the boiler manufacturer acquired 100 % of the shares and voting rights of the Israeli entity and paid, on an equity ...

With a solar hot water system from Chromagen, you can literally soak in the warmth of the sun whilst reducing your water heating bills. These highly efficient water heaters use the sun's unlimited and free energy to pre-heat your water, using up to 80% less purchased energy than conventional hot water systems.

A typical solar water heater comprises a tank and a panel which is mounted to be exposed to collect heat from the sun. The tanks supplied by Isratech currently range in size from 120 to 300 litres, or 32 to 80 gallons. The factory will assemble similar size heaters. The solar panel incorporates copper, which is a conductor of heat.

Chromagen, a pioneer in the production of solar water solutions since 1962, is the market-leader in Israel, which is one of the world leaders per capita. Globally, the company has developed a solid install base, increasing supply and demand annually. Chromagen's systems, which are available in more than 35 countries worldwide
