

Circor energy Austria

Who is Circor energy?

CIRCOR Energy is a market-leading, global provider of integrated flow control solutions in the expanding and evolving oil and gas industries, specializing in highly engineered valves and pipeline products and services.

Why should oil & gas customers choose Circor?

The escalating number of environmental regulations and significant power needs in refineries. Customers turn to CIRCOR for fluid-handling solutions that transfer critical fluids without interruption and keep equipment running at peak efficiency. Because failure is not an option in oil & gas.

Why should you choose Circor terminal station solutions?

Move fluids with speed and precision by having the right people and technology in place. Backed by a team of knowledgeable specialists, CIRCOR terminal station solutions ensure efficiency flows downstream, whether you're charged with loading and unloading fluids or storing, redistributing and consolidating them.

What brands do Circor use?

In fact, CIRCOR's trusted brands - Allweiler, Imo, Houttuin(TM), Tapco Enpro, Delta Valve, Tushaco, RTK, Schroedahl, Warren and Zenith - help move more than 4.5 million barrels of crude every day, with our unique ability to deliver:

Why should you choose Circor Zenith Pumps?

CIRCOR's Zenith Pumps helps customer roll out a revolutionary new way of making scented plastic bags. Many roles. One purpose. Keeping society safe, productive and moving. When failure is not an option. Turn to the most trusted name in critical fluid handling. Excellence in flow control. Achieving excellence through technology, teamwork and talent.

CIRCOR markets its solutions directly and through various sales partners to more than 14,000 customers in approximately 100 countries. The Company has a global presence with approximately 3,100 employees and is headquartered in Burlington, Massachusetts.

for sea water cooling systems. The result: variable speed operation that provides the seven year-old vessel with energy savings on the main sea water pumps of approximately 70 percent, increases system uptime and delivers safe, consistent pump ...

CIRCOR's Energy Group designs, manufactures and distributes market leading ball, check, control and safety relief valves as well as pipeline measurement and integrity solutions for use in oil and gas applications. The Energy Group's flagship brands include: KF, Pibiviesse, Contromatics, Mallard Control, Hydroseal, Sagebrush Pipeline Equipment ...

save significant amounts of energy and lower maintenance costs, while simultaneously reducing downtime compared to an inclined conveyor. By Heinz Peter Sildatke, Service Advisor, and Gunter Connert, Sales Director, CIRCOR Germany Sewage Plant Looks for Cost Reduction and High Availability The Duisburg-Kasslerfeld sewage plant serves a large

CIRCOR Bodet produced electro-mechanical products that are under CIRCOR Industria brand since 2018 as electrical brushless motors, wheel speed transducers, brake pedal transmitter units. Designed to resist the most hostile ...

CIRCOR offers an innovative portfolio of pump and valve technologies from brands you know and trust. Our engineering and design specialists conduct extensive research and testing to develop the highest quality products that meet all international standards. Our application and technology expertise allows us to safely and effectively manage the ...

US-based Circor Energy is one of the leading designers and manufacturers of highly engineered products and sub-systems. The company caters to numerous industries such as oil and gas, industrial, aerospace, defense, power generation, commercial & institutional facilities, and marine industry segments.

CIRCOR's application-specific, packaged solution. The CIRCOR team used a 3-D computer aided design (CAD) program to demonstrate how an integrated system with fuel filtration, main fuel oil injection pump, preferred electric motor, instrumentation, piping and ...

CIRCOR provides two technologies that protect your rotating equipment - PurLube and Oil Mist. PurLube: ... Providing the right amount of lubrication to your rotating equipment lowers the bearing temperature, reduces energy loss and extends the life of your equipment. Oil mist has reduced bearing failures in centrifugal pumps and electric ...

No one knows your valves, pumps and systems like the experts at CIRCOR. Our certified OEM parts are engineered to meet or exceed original equipment standards and our service and support teams are equipped with some of the best knowledge in the industry. We have the resources to troubleshoot, analyze and solve even your most complex issues in ...
