...

Companies are successfully shifting away from inefficient energy use to state-of-the-art technologies integrating renewables and decreasing costs and CO2 emissions. New energy solutions keep Europe competitive and drive us towards climate neutrality with benefits for local communities. In this webinar, Solar Turbines and Turboden present how their cogeneration ...

The Role of Cogeneration in Europe's Energy Transition Enabling an Efficient Pathway to Net Zero The next five years will be crucial for building a prosperous, competitive and sustainable Europe. Energy is vital for all Europeans and the economy. Our homes, schools, hospitals, businesses and industry need secure access to electricity and heat that are both

COGEN Europe's managing director, Hans Korteweg, remarked in a statement: "COGEN Europe, as the voice of Europe's cogeneration sector, is ready to engage with the incoming European Commission and provide constructive input to important discussions, including those on the Clean Industrial Deal and on how to decarbonise Europe's energy ...

COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. Its mission is to work with EU institutions and stakeholders to shape better policies and eliminate ...

COGEN Europe o The European Association for the Promotion of Cogeneration Avenue des Arts 3-4-5, 1210 Brussels, Belgium T +32 (0)2 772 82 90 | F +32 (0)2 772 50 44 | info@cogeneurope Indeed, the hydrogen projects collected by the European Commission through the Hydrogen Alliance this spring revealed that 84% of ...

A study by Artelys finds that cogeneration is a primary enabler to achieve carbon neutrality in Europe by 2050. Realising the cost-effective potential for cogeneration in all sectors will maximise energy efficiency and integration of the European energy system at the lowest cost, while bringing key benefits to end consumers.

COGEN Europe | 1922 seguidores en LinkedIn. COGEN Europe is the European Association for the Promotion of Cogeneration. Cogeneration or Combined Heat and Power (CHP) is the most efficient way to deliver heating, cooling and electricity. It is based on the simultaneous production of electricity and thermal energy, both of which are used.

COGEN Europe's Annual Conference brings together companies and organisations with an interest in cogeneration technologies and applications. The Conference programme includes a series of panel sessions looking forward to the challenges and opportunities that the cogeneration sector will face during the next five years, under the incoming European Commission which is ...

One of COGEN Europe's multiple objectives is to create opportunities at the national and local levels for the sector to grow via the development at European level of a favourable environment (supportive energy policies, enabling research development deployment and innovation framework, allowance of funding opportunities for developers and operators, etc.).

COGEN Europe o The European Association for the Promotion of Cogeneration Rue d'Arlon 80, 1040 Brussels, Belgium T +32 (0)2 772 82 90 | F +32 (0)2 772 50 44 | info@cogeneurope o CHP is future proof and fuel flexible, having the capability to easily switch to renewable sources including biomethane, bio-LPG, hydrogen. ...

COGEN Europe calls on the new European Commission to boost competitiveness and cut emissions by putting energy efficiency first; Conclusions of COGEN Europe's Annual Conference 2024; Announcing the winners of the COGEN Europe Recognition Awards 2024; COGEN Europe's members are ready to help meet Ukraine's energy needs

PRESS RELEASE. 17 June 2024. COGEN Today, Environment Ministers from the 27 EU Member States met in Brussels, where they discussed the European Commission's communication on Europe's 2040 climate target and path to ...

COGEN Europe seeks to influence EU policies and legislation with a special focus on energy, climate and environmental issues. We share our policy positions with policymakers, stakeholders and the wider public via our position papers and other publications. Our papers reflect the consensus view of our members spanning the entire energy supply chain.

The COGEN Europe Virtual Annual Conference will debate how we can shape this ambitious package to ensure it delivers a cost-effective energy. The Fit for 55 Package will determine the future of the European energy sector as it sets the pathway how Europe will decrease its greenhouse gas emissions with at least 55% by 2030. The COGEN Europe ...

COGEN EUROPE brings together national associations and companies with an interest in cogeneration - from equipment manufacturers to end-users and consultancies. We currently have 55 members including 17 national associations and 38 corporate members. National Association

COGEN Europe's Policy Priorities 2024-2029 are set out in the document: The Role of Cogeneration in Europe's Energy Transition - Enabling an Efficient Pathway to Net Zero . Search. Search. Recent Posts.

COGEN Europe calls on the new European Commission to boost competitiveness and cut emissions by putting energy efficiency first;

HanseWerk Natur replaced their previous landfill heat generator plant by partnering with COGEN Europe member, INNIO Jenbacher to install six new CHP gas engines to HanseWerk Natur's combined heat and power plant is Hamburg's largest and most efficient CHP plant, producing 8.4 megawatts of electrical output powering up to 20,000 households ...

COGEN Europe actively participates in EU policy making with a special focus on energy, climate and environmental matters. We share our policy positions with policymakers, stakeholders and the wider public via our position papers and publications. Our papers reflect the consensus view of our members spanning the entire energy supply chain.

PRESS RELEASE. 17 June 2024. COGEN Today, Environment Ministers from the 27 EU Member States met in Brussels, where they discussed the European Commission's communication on Europe's 2040 climate target and path to climate neutrality by 2050, which recommends reducing the EU's net greenhouse gas emissions by 90% by 2040 relative to 1990.

That leaves many leading European industries, such as the chemical, food and drink, ceramics, pulp and paper and alumina sectors to name a few, with limited choices when seeking funding or getting loans to accelerate their energy transition. Indeed, they need a lot of energy, in particular continuous high temperature heat supply for 24h/7 ...

COGEN Europe | 2.006 follower su LinkedIn. COGEN Europe is the European Association for the Promotion of Cogeneration. Cogeneration or Combined Heat and Power (CHP) is the most efficient way to deliver heating, cooling and electricity. It is based on the simultaneous production of electricity and thermal energy, both of which are used.

COGEN Europe, the European Association for the Promotion of Cogeneration, is the cross-sectoral voice of the cogeneration industry. Its mission is to work with EU institutions and stakeholders to shape better policies and eliminate administrative, regulatory and market barriers to the wider use of cogeneration in Europe.

COGEN Europe calls upon the incoming European policymakers to support the development of an increasingly integrated, efficient, resilient, and decarbonised energy system that meets the ...

COGEN Europe calls for a "smart approach" to reducing greenhouse gas emissions from homes and other buildings - COGEN Europe (15 December 2021) Energy Performance of Buildings Directive - European Commission. European Green Deal: Commission proposes to boost renovation and decarbonisation of buildings - European Commission (15 ...
