Solar power in the Cook Islands is boosting local businesses and education. ... we ended up using diesel for our generators. And that was the start of electricity into the home as we know it. My name is Cindy Anna ...

Infratec Chief Executive Greg Visser said the four solar plants were now providing clean, reliable and affordable energy to almost 1500 people - or about 9 percent of the Cook Islands" population. The solar panels, which are backed by battery storage, will meet about 95 percent of the islands" energy needs, he said.

Te Aponga Uira generates and distributes electricity to Rarotonga in accordance with its mandate under the Te Aponga Uira O Tumu-te-Varovaro Act (1991). TAU is a critical key infrastructure asset for Rarotonga and the wider Cook Islands.

Elizabeth Wright-Koteka, from the Office of the PM, NZ High Commissioner Joanna Kempkers and Apii Timoti, from TAU, tighten the bolts on the first solar panel to be installed at the Rarotonga Airport solar plant, with Liam Fox from Solar City supervising their work. 14080722

Like a number of other remote island communities, The Cook Islands have decided to get rid of expensive diesel power and go to 100% solar within the next few years. To do this they are constructing solar arrays backed up with small amounts of Li-ion battery storage which they believe will overcome the solar intermittency problem.

Construction of a new solar energy system beside Rarotonga Airport has slowed while contractors wait for nearly 4000 solar panels to be shipped over from New Zealand. Panels needed for solar project - Cook Islands News

Repairs to the solar power system in the northern group islands could take up to a year and residents need to conserve their power usage, says the Office of the Prime Minister (OPM). Solar power battery repairs "could take up to 12 months" - Cook Islands News

Just 20 minutes by road from Rarotonga's international airport, Nautilus will offer a fresh new experience to the Cook Islands luxury full service resort offering. Redefining laid back luxury, and created for resort or exclusive use, Nautilus is ideal for families, couples, celebratory parties and wedding gatherings.

Bob "Solar Bob" Reilly is getting more orders than ever for his Solar Breeze, the solar powered spinning fan that he says is a real money spinner for customers. "The Fishing Club had two installed last year and they have lowered their electricity bills by \$1000 a month," Reilly said. Now orders are pouring in, [...]

Solar panels supplied by the Australian Defence Force are helping Cook Islands Police address their financial troubles. At a time when the Police Service has been financially crippled by huge power costs, the Maritime Surveillance Centre (MSC) at Avatiu harbour has made major strides in reducing its operational costs.

1. Introduction. This Plan updates the Te Atamoā o te Uira Natura (The Cook Islands Renewable Electricity Chart (CIREC), 2012) and is a guiding document for all stakeholders.¹ While responsibility for the implementation of the CIREC rests with the Energy Commissioner, the Renewable Energy Development Division (REDD) will have the overarching role in developing ...

Prime minister Henry Puna officially opened the first of four solar power stations in the southern group islands under the Cook Islands Renewable Energy Project on the island of Mitiaro on Thursday.

New solar plus battery projects in the Cook Islands demonstrate how off-grid regions can escape reliance on diesel generators.. Six of the twelve inhabited Cook Islands are the target of hybrid renewable energy projects ...
