Résumé : ZMAG began in May this year the project Food Wave - Empowering Urban Youth ...

Search all the ongoing (work-in-progress) GUSESS projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Croatia with our comprehensive online database. Call +1(917) 993 7467 or connect with one of our experts to get full access to the most comprehensive and verified construction projects happening in your area.

I am song-writer, music producer and video maker/creator from Croatia. My biggest passion is writing music, but I also have plenty of work done in graphic and video industry as I have worked with brands and companies on creating logos, promo videos and video marketing in general. My official job cv is not that big as I have spend my teenage years playing football professionally ...

The foreseen ES+ funding amounts to EUR 1.933 billion for Croatia. In addition to the funding of national co-financing, the overall financial value of the Human Resources Programme 2021 ...

Croatia has one single Operational Programme (OP) implementing specific actions to support young people's integration into the labour market. This national ESF OP Efficient Human ...

The European Spallation Source (ESS), currently under construction in Lund, Sweden, will be the world's most powerful linear accelerator driving a neutron spallation source, with an ultimate beam average power of 5 MW at 2.0 GeV. The LINAC accelerates a proton beam of 62.5 mA peak current at 4 % duty cycle (2.86 ms at 14 Hz). The accelerator uses a normal conducting front ...

Croatia: A Collaborative Agreement was signed with two partners: OIKON d.o.o. and GEKOM d.o.o. for range of topics in environmental analysis, planning, and management. A first concrete collaborative project is WEBAIR-2, an extension of the EUREKA E!3266 WEBAIR with emphasis on particulates. A joint case study for the town and region around ...

ESS solutions like those developed by Rimac Energy allow Croatia to store surplus energy generated from renewables like wind and solar, making it available when demand peaks or renewable generation is low. Another highly innovative project in the energy sector comes from the Croatian company Sunceco.

ESS mjeri stavove, uvjerenja i obrasce ponasanja raznolikih populacija u vise od trideset zemalja. Glavni ciljevi ESS-a su: pratiti stabilnost i promjene u drustvenoj strukturi, uvjetima i stavovima ...
