

Why is Bess revenue capture lower in the north & south?

BESS revenue capture in the North is typically lower than in the South (& on the islands). This is a result of high flexibility available in the North (e.g. flexible hydro, pump storage & CCGTs) which dampen day-ahead price spreads. Liquidity on the intraday market is still very low compared to Germany & GB.

What is McKinsey's forecast for Bess?

McKinsey anticipates that the utility-scale BESS segment will experience the most rapid growth, estimated at 29% annually through the end of this decade. This segment is set to dominate the market by 2030, potentially accounting for up to 90% of the total market share, with annual installations projected to be between 450 and 620 GWh.

Will res penetration growth support intraday liquidity?

RES penetration growth will also support intraday liquidity. The MSD market (for balancing & ancillaries) is starting to play a more important role in creating incremental BESS value on top of Day-Ahead spreads, after BESS participation in MSD kicked off earlier this year.

How did Bess perform in Q2 & 3?

However German BESS assets have seen a sharp revenue stack recovery across Q2-Q3, with revenues back above 150 EUR/kWh/yr levels in Q3. This recovery has been supported by strong intraday market volatility and real-time aFRR energy prices.

How is Bess revenue recovery evolving in 2024?

A recovery in BESS revenues has been underway since Feb 2024, as gas prices have recovered & weather conditions normalised. Rising price volatility (& negative prices) from increasing RES penetration have also been an important factor supporting revenue recovery. Let's look at how the 2024 revenue recovery is evolving across each of the 3 markets.

How has Bess performed in the next 1-2 years?

Day-ahead price spreads capturable by 2 hour duration BESS recovered from below 40 €/MWh in Feb to around 70 €/MWh in Aug. BESS revenues have also been supported by: an increase in negative prices & intraday value capture. Gas price levels and the pace of RES penetration growth are two key drivers to watch across the next 1-2 years.

The capacity market is set to kickstart the large-scale BESS market in Poland by providing the basic building blocks of the business case, according to numerous delegates interviewed by Energy-Storage.news at Energy Storage Summit Central Eastern Europe (CEE) 2023 in Warsaw in September. Greenvolt wins 1.2GW of contracts for BESS

Cyprus bess capacity market

Available data suggests that, 2-hour batteries are up to 38% more profitable than 1-hour batteries.⁸ By 2040 BESS capacity in the UK is expected to reach 50 GW, with some predicting an increased ...

Georgina Morris, head of capacity market policy and low-carbon networks for the UK government Department of Energy Security and Net Zero (DESNZ), remarked that the clearing prices offered an uplift to the typical BESS revenue stack, taking average revenues from $\pounds 51k$ (US\$64.4k)/MW/yr to $\pounds 65k$ /MW/yr with CM revenues factored in.

An environmental impact assessment (EIA) has been submitted for a renewable energy project combining solar PV and energy storage on the Mediterranean island nation of Cyprus. The project would combine 72MW of ...

The 2022 document was key for Italian market and BESS investors because it outlined: A first estimate of the zonal needs for storage capacity (based on RES & demand scenario forecasts) ... The next Capacity Market auctions for 2026-2027-2028 will now likely follow the first MACSE auctions, after resolution of the legal review now happening on ...

BESS is an emerging technology able to compensate for the drawbacks of RES in power system operation and thus, to accelerate green transition. Moreover, BESS can ...

The cost-optimal analysis reveals that the introduction of a battery energy storage system (BESS) to Cyprus island mitigates RES curtailments, increases system flexibility and greatly enhances...

The standalone battery energy storage system (BESS) will have a 150 MW / 300 MWh capacity and will support energy security and reliability as renewable energy supply increases, pacing South Australia's ongoing energy transition. The order was booked in September 2024.

Notably, seven of these projects totalling over 1 GW are already undergoing review by the Ministry of Environment and Energy Security (MASE). Northern projects will target participation in the capacity market scheme, while Southern projects aim to bid in the Mechanism for Procuring Electricity Storage Capacity (MACSE).

This in part reflects greater BESS capacity on the system as well as a less pronounced impact of solar. It also reflects fully saturated GB ancillary service markets. Day-ahead price spreads capturable by 2 hour ...

Market Analysis. Lithium-ion battery pack prices fall 20% in 2024 amidst "fight for market share" ... (RA) contracts covering 620MW of BESS capacity across three projects. Premium. US DOE clean energy loan and grant activity soars after Trump election, data shows. December 5, 2024.

The Capacity Market's growing role in BESS revenue stacks . Georgina Morris, head of capacity market policy - low carbon technologies for the Department of Energy Security and Net Zero (DESNZ), confirmed

that the T-1 ...

Polish capacity market rates in 2021 and 2022 auctions have exceeded 400.000 PLN/MW/year making Polish market to be the most attractive in Europe. Inflation indexed government guarantees for up to 17 years give solid footing to make energy storage a lucrative business in Poland. ... Preparation of the Feasibility Study for BESS projects ...

This in part reflects greater BESS capacity on the system as well as a less pronounced impact of solar. It also reflects fully saturated GB ancillary service markets. Day-ahead price spreads capturable by 2 hour duration BESS recovered from below 40 €/MWh in Feb to around 70 €/MWh in Aug. BESS revenues have also been supported by:

Global energy storage systems market size 2021-2031; Market share of ESS suppliers South Korea 2021-2023; ESS market share target South Korea 2025-2036; Newly installed ESS capacity South Korea ...

By offering high-capacity BESS for the commercial and industrial market, European BESS OEMs can potentially capture additional revenues with larger customer ...

Deploying BESS projects in areas with high renewable capacity, but that also experience high curtailment, allows developers to provide a tool that more efficiently captures and distributes ...

The Greek government has decided to slash by 50% the available subsidies for the country's second tender for battery energy storage system (BESS) projects, Energypress reported on Friday.

The auction, which was for delivery of projects to begin operation in 2024, has been credited with kickstarting the Italian market for grid-scale energy storage s biggest winner was utility Enel, which won more than 90% of contracts up for grabs. Italy is set to become one of Europe's most active markets, as profiled in a feature article for our quarterly journal PV Tech ...

Major firms such as Tesla and Samsung have already expressed interest in working with the government on this significant 150 MW storage capacity project, according to ...

Annual added battery energy storage system (BESS) capacity, % 7 Residential Note: Figures may not sum to 100%, because of rounding. Source: McKinsey Energy Storage Insights BESS market model Battery energy storage system capacity is likely to quintuple between now and 2030. McKinsey & Company Commercial and industrial 100% in GWh = CAGR,

Sweden is expected to be the largest energy storage market in the Nordic region, with research firm LCP Delta forecasting last year that 800MW of large-scale BESS would be online by the end of 2025. BW ESS and Ingrid's portfolio gets it a quarter of the way there, and a partnership between Ingrid and another investor SEB Nordic Energy will ...

The impact of BESS energy and power capacity sizing is discussed, showing that the main contribution of storage lies in the provision of fast response reserves that facilitate the integration of ...

Key drivers of BESS revenue stack in 2023-24. There are some important common drivers across all European power markets that have shaped BESS revenue stack performance across the last 3 years. All markets ...

BESS wins big in Poland's capacity market auction for 2029 December 18, 2024 BESS has won big in Poland's capacity market (CM) auction for 2029 delivery, with potentially 2.5GW of projects winning contracts including from Axpo, OX2, R.Power, FRV and PGE.
