Who is DNV - energy systems?

DNV - Energy Systems | 140,950 followers on LinkedIn. Transitioning faster to a deeply decarbonized energy system | We provide assurance to the entire energy value chain through our advisory, monitoring, verification, and certification services.

How can DNV change the energy transition?

DNV is helping to change the timeline from hydrogen on the horizon to hydrogen in homes, businesses, and transport systems. The next phase of the energy transition demands committed implementation of new technologies. Let's start a new project together!

What makes DNV a trusted partner?

Our collective deep and broad knowledge among 12,000 employees in DNV enables us to fulfill our purpose to safeguard life, property, and the environment. Our more than 4,000 dedicated experts working closely with our customers in energy make us the trusted partner to tackle the biggest global transformation in a generation: the energy transition.

How many homes will DNV power a year?

This project will power over 145,000 homes annually and reduce CO2 emissions by more than 146,000 tons. DNV's due diligence and market analysis were key in securing \$345 million from international banks.

Why should you choose DNV?

Through our advanced technical expertise and regulatory understanding, we deliver unique insights and knowledge that help our customers to deliver energy in a safe and sustainable way. Our collective deep and broad knowledge among 12,000 employees in DNV enables us to fulfill our purpose to safeguard life, property, and the environment.

What is the DNV battery performance scorecard?

Our fourth Battery Performance Scorecard provides an independent ranking and evaluation of battery vendors based on testing performed in DNV's laboratories. DNV's recent Europrivacy(TM)&#174; accreditation by Accredia affirms its commitment to privacy and security.
