We offer our clients modern, compact, and efficient charging technology for any kind of lead-acid or lithium-ion battery. Small size and full parameterizing enable chargers to meet customer needs at an excellent performance. We aim to be in the right place, offering the right charger for the right application and battery.

Battery weights may vary +/- 5%. Counterweights can be added to the battery if the service weight of the battery is less than the minimum weight required. This information is subject to change based on notice from suppliers or Triathlon needs.
