

# Doosan power systems s a Poland

Will Doosan build a waste-to-energy plant in Poland?

A consortium of Doosan Heavy Industries & Construction and the Doosan group's German subsidiary Doosan Lentjes has been awarded a contract worth approximately EUR156 million, to build a waste-to-energy (WtE) plant in Poland.

How much power will a Doosan plant generate?

The power generating capacity of the plant will amount to 12 MW. Doosan Heavy will deliver overall project management services, while Doosan Lentjes will supply the incineration boiler and environmental equipment.

Will Doosan Power supply a 12MW industrial steam turbine?

Doosan's Czech subsidiary Doosan Skoda Power will supply a 12MW industrial steam turbine to the operation. Doosan says it's seeing increasing demand for WtE plants in Europe, due to a combination of the EU's waste landfill restriction policy and a number of old plants coming to the end of their useful lives.

Does Doosan Lentjes support waste-to-energy in Poland?

Doosan Lentjes is supporting Waste-to-Energy in Poland. - ESWET - European Suppliers of Waste to Energy Technology Doosan Lentjes is supporting Waste-to-Energy in Poland. Poland needs more WtE. To ensure the country will meet the municipal landfill target of 10% by 2035 of the European Green Deal, waste-to-energy is the go-to technology.

Where is Doosan Power Systems located?

Doosan Power Systems' headquarters are located in Crawley, England. Its parent company is Doosan Heavy Industries and Construction (DHIC) in Korea.

The casks, referred to as "small storage facilities," use the dry cask storage method to safely store the spent nuclear fuel. Thermal and structural soundness are key requisites of the casks, as they are used to prevent nuclear fission (i.e. criticality achieved) and perform radiation shielding based on the effective storage/sealing of radioactive materials.
