

Dragonfly energy Kyrgyzstan

Who is Dragonfly energy?

Dragonfly Energy has advanced the outlook of North American lithium battery manufacturing and shaped the future of clean, safe, reliable energy storage. Our domestically designed and assembled LiFePO₄ battery packs go beyond long-lasting power and durability--they're built with a commitment to innovation in our American battery factory.

What makes dragonfly energy unique?

Dragonfly Energy differentiates itself through its cutting-edge cell manufacturing processes, including a proprietary dry electrode technique that fosters domestic production and paves the way for future solid-state battery advancements. Dragonfly Energy champions sustainability in cell manufacturing.

Why should I subscribe to Dragonfly energy newsletter?

When will Stevens transport transition to Dragonfly energy?

After extensive testing and trials, Stevens Transport has committed to transitioning its entire fleet of 2,500 trucks to Dragonfly Energy's lithium power solutions. Implementation will begin with equipping 100 trucks with the Battle Born All-Electric APUs in the first quarter of 2025, continuing through entire fleet completion.

Dragonfly Energy's lithium battery factory in Reno, Nevada is a hub of American innovation. The facility leverages Dragonfly Energy's own patented technologies to develop diverse lithium cell chemistries and advanced pack design, pushing the boundaries of energy storage solutions.

Harnessing extensive research and development efforts, Dragonfly Energy bridges the gap between the lab and production. By meticulously utilizing our scientists' expertise and cutting-edge instrumentation ...
