Costa Rica has a strong focus on renewable energy, with 99.78% of the energy output coming from renewable sources in 2020. However, solar power currently accounts for less than 1% of the country's energy production. In November 2021, Costa Rica approved a bill that allows individuals to produce their own renewable electricity and sell their surplus energy.

Depending on your needs, sometimes our app can be helpful to find charging points in Costa Rica. Overall, finding EV chargers in Costa Rica has become much easier in recent years, thanks to the growth of charging infrastructure and the availability of tools and resources like Electromaps to help drivers locate charging points.
