Who makes the best solar inverter in Fiji?

Our dedication to using trusted brands guarantees that our customers receive the highest standard of solar products and services in Fiji. Fronius, SunGrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance.

When was the first off-grid solar system installed in Fiji?

In May 2002 Clay Energy commissioned the first off-grid solar base station power system for Vodafone Fiji, which led to the rollout of these power systems to six mobile operators in the region. Clay Energy's first PV grid-connect system (18kW) was installed and commissioned in 2008, being the first in the region.

Who makes the best solar inverter?

Fronius, SunGrow, and Selectronic are renowned inverter manufacturers known for their exceptional quality and performance. Fronius inverters are lauded for their innovative technology, efficiency, and robustness, making them a popular choice for residential and commercial solar installations worldwide.

Some readily available equipment in Fiji includes solar panels, batteries, inverters, and charge controllers. Nevertheless, these suppliers serve a small market and may not have the capacity to supply mega-project equipment. In such a scenario, the best course of action is importing equipment from leading brands in established solar markets. ...

CBS Power Solutions, a local company working in renewable energy, first heard about the risk sharing fund in 2009 and subsequently took out a loan to buy the equipment needed. They now install solar panels across the Pacific Islands. The Lal family was one of the first houses in Fiji they worked with, installing four 140-watt solar panels and providing information on how to use ...
