Committed to solving various shortcomings of performance impacting people's usage of batteries, FinDreams Battery creates high safety, low cost, long endurance mileage, long cyclelife, and highly adaptable battery solutions.

BYD Lithium Battery Co., Ltd. was established in June 1998 as a wholly owned subsidiary of BYD Company Limited. With a focus on the new energy industry, the company has been deeply involved in the battery sector for nearly three decades, possessing independent R& D capabilities covering entire value chain as well as comprehensive expertise of core battery technologies.

In 2022, to build the ESG governance and development system, achieving sustainable development, FinDreams Battery has established the "ESG Management Committee", strengthened the ESG participation of the company's senior management, conducted top-down ESG governance practices,

The green technology is an inevitable trend in the development of science and technology. Oriented by solution of social issues and driven by technical innovation, FinDreams Battery implements the principle of "green and environment-friendly" during research and development of new products and continuously improves the effectiveness of the energy management system, ...
