FoxESS Community - Owners & Installers Forum. This is a private, informal group designed as a support network for all FoxESS owners and installers ... Post Tue Dec 13, 2022 3:47 pm. Hi my Battery pack is stuck at 49% and says it is discharging 0.017kw. This has remained constant for the last 48hrs regardless of what is turned on in the house. I ...

A week ago my battery decided to force charge - I put this down to the cold as did others on the FB group. For the last week I have been on IO and the batteries have been charging and discharging normally. Until last night. The battery (cube) was quite happy discharging powering the house. Then the force charge was suppose to start at midnight.

Hi there, first post on this forum and just looking for some advice. I operate a hybrid system with solar panels and battery and have just moved to a new energy tariff with low overnight rates (00:00 to 05:00). I want to use this to charge up my battery overnight form the grid so I use less grid electricity at peak times.

Fox ESS is a global leader in the development of solar inverter and energy storage solutions, engineered by some of the leading inverter and battery experts.
