Is Freyr's pivot to solar energy a prospect to approach cautiously?

Adding uncertainty to the incoming administration's policies and the glut in solar production equipment, FREYR's pivot to solar energy looks like a prospect to approach cautiously. I will watch from afar. Income-oriented individual investor focusing on building a solid dividend portfolio within oil and gas, shipping, energy, and minerals.

What assets does Freyr have?

FREYR's portfolio of real assets includes its Customer Qualification Plant ("CQP") for technology research and development in Mo i Rana, Norway, and the Giga Arctic and Giga America project site assets.
