

Global pumped hydropower storage

The 2025 World Hydropower Outlook, released today by the International Hydropower Association, reveals strong global momentum for hydropower development, led by ...

Global spatial distribution of hydropower plants, with color representing the hydropower plant type, i.e. run-of-river (ROR), storage (STO), pumped storage, (PS), Canal or ...

The global pumped hydro storage market was valued at USD 353.8 billion in 2023, advancing at a compound annual growth rate of 9.2% between 2024 and 2030.

Large amounts of energy storage are required to support high levels of solar and wind power. Pumped hydro energy storage comprises the majority of global energy storage for ...

A new report from the International Hydropower Association shows strong global momentum for hydropower development, led by a sharp rise in pumped storage hydropower ...

Global Atlas of Closed-Loop Pumped Hydro Energy Storage Wind turbines and solar photovoltaic (PV) collectors comprise two thirds of new generation capacity but require storage to support ...

About Storage Innovations 2030 This report on accelerating the future of pumped storage hydropower (PSH) is released as part of the Storage Innovations (SI) 2030 strategic initiative. ...

The global Pumped Hydro Storage (PHS) market size is projected to grow from \$48.33 billion in 2024 to \$129.01 billion by 2032, recording a CAGR of 13.06%

Executive Summary This is the third Pumped Storage Report White Paper prepared by the National Hydropower Association's Pumped Storage Development Council (Council). The first ...

Learn why Pumped Storage Hydropower is vital for the energy transition. Join global leaders at the 2025 International Forum in Paris to accelerate solutions for 1,500 GW storage capacity ...

Pumped Hydro Storage Market Trends The Pumped Hydro Storage Market is experiencing a surge in development due to the increasing global dependence on renewable ...

View the agenda for the 2025 International Forum on Pumped Storage Hydropower. Join expert-led discussions and networking sessions. Stay updated on speakers and sessions.

Various technology types are tracked in the dataset, including conventional storage, run-of-river, and pumped

storage facilities. Each hydropower plant included in the tracker above the 45 MW ...

The International Hydropower Association (IHA) has today launched a toolkit for pumped storage hydropower (PS) development. This toolkit details the barriers for delivering ...

Pumped Hydro Storage Market Pumped Hydro Storage Market Size and Share Forecast Outlook 2025 to 2035
The pumped hydro storage market is projected to grow from ...

The 2025 World Hydropower Outlook: Focus on Pumped Storage, Modernisation and Market Readiness The World Hydropower Outlook, the flagship annual publication by the International ...

The global pumped hydro storage market size is projected to grow from USD 426.06 billion in 2025 to USD 848.96 billion by 2033, exhibiting a CAGR of 9%.

We present the first estimate of the global assessment of SPHS potential, using a novel plant-siting methodology based on high-resolution topographical and hydrological data.

The Global Alliance for Pumped Storage (GAPS) will advance the deployment of pumped storage hydropower (PSH), the essential element to supporting renewable energy and ensuring energy ...
