Will Goodenough energy invest Rs 450 crore in Jammu & Kashmir?

Battery energy storage systems maker GoodEnough Energy will invest Rs 450 crore for setting up a 20 GWh per annum capacity plant in Jammu & Kashmir by 2026. Presently, the company is in the process to make its plant operational by October this year with initial battery energy storage systems (BESS) manufacturing capacity of 7GWh per annum.

What is Goodenough energy?

At GoodEnough Energy, we are dedicated to crafting the most cutting-edge, modular, and adaptable. Our goal is to provide solutions that not only unlock new revenue streams but also enhance energy efficiency, facilitating the seamless transition toward a greener future.

Why should you choose Goodenough energy Bess?

The selection of reputed manufacturers, GoodEnough Energy, drives more reliable and efficient products with advanced technology while being safer in compliance, with great customer support, to secure their ever-evolving energy needs. What are the advantages of GoodEnough Energy BESS?

John Bannister Goodenough (/ ' g ? d I n ? f / GUUD-in-uf; July 25, 1922 - June 25, 2023) was an American materials scientist, a solid-state physicist, and a Nobel laureate in chemistry. In 1986 he was a professor of Materials Science, Electrical Engineering and Mechanical Engineering, [3] at the University of Texas at Austin. He is credited with identifying the Goodenough-Kanamori ...

GoodEnough Energy is planning a battery energy storage systems (BESS) gigafactory for grid stability with an initial capacity of 7 GWh. At full scale, the factory will have 20 GWh capacity by 2026. In its endeavour to create a fully integrated ecosystem, the gigafactory will produce advanced BESS, empowering various industries to reduce carbon ...
