

# Guatemala reflex renewables

Who is Reflex renewables?

It provides solar power to residential and commercial complexes and businesses in urban cities & rural towns across the country. With 20+ years of experience and expertise in the solar pv industry, Reflex Renewables is a specialist in design, execution, installation and maintenance of solar power systems.

Does Reflex group have a sustainable future?

As we present the inaugural Sustainability Report for the fiscal year 2022-23, the Reflex Group reaffirms its unwavering commitment to shaping a sustainable future.

How Reflex helps power plants?

Reflex assists in providing a whole end-to-end system for managing the flow of coal within power plants, including delivery, feeding into boilers, and ash disposal. We take pride in our work and have assisted power plants in three states of India with a combined capacity of 2,561 MW, in handling their ash disposal.

What is Reflex industries agro farming?

Reflex Industries' agro farming practices epitomise our vision for a sustainable future, where renewable energy and agriculture harmoniously coexist.

Does Reflex group have an environmental management system?

Reflex Group has implemented an Environmental Management System (EMS) in accordance with EMS ISO 14001:2015. This demonstrates our commitment to effectively managing the environmental aspects and impacts associated with our operations.

How can Reflex contribute to sustainable utilisation of thermal ash?

These partnerships can contribute to the sustainable utilisation of thermal ash, such as its potential use in the cement industry, thus reducing waste and promoting circular economy principles. Reflex is committed to sustainability and minimising its environmental footprint.
