

Guernsey container battery price

Although it was suspected that the battery had been in the consignment from Mont Cuet, it could not be proven since there was other electrical waste already in the container, said Mr Le Page. The blaze "pushed the Guernsey Fire & Rescue Service to its limits", he wrote. It was more than 12 hours later that the fire was declared extinguished.

Overview Planning Barrels Construction Gun casemate Operations Command structure Post-war The Batterie Mirus is located in Saint Peter and Saint Saviour, Guernsey. Originally called Batterie Nina, it comprised four 30.5 cm guns. The battery was constructed from November 1941 and through the first half of 1942, and was the largest battery in the Channel Islands, the guns having a maximum range of 51 km. Although the guns were removed in the early 1950s, the reinforced concrete structures and associated positions remain intact.
