

Guernsey esco power

When did Guernsey Electricity become a company?

In 1993, Guernsey Electricity was adopted as the trading name, and in 2001 became Guernsey Electricity Ltd following commercialisation. In 1998, the Channel Islands Electricity Grid was established to operate subsea cables supplying electricity from Europe giving a secure, reliable and affordable source of energy.

Does Guernsey have electricity?

The company is the sole licenced distributor of electricity to Guernsey with over 94% of the island's energy being supplied through the subsea cables while at the same time maintaining sufficient on-island generation capacity.

What is Guernsey's Electricity strategy?

In September 2023 The States of Guernsey agreed the Electricity Strategy. This detailed document covers the period up to 2050 and sets out a high-level strategic plan of how Guernsey could meet the anticipated increase in demand for electricity.

Will Guernsey Electricity invest in a new power station?

It allows Guernsey Electricity to invest in new diesel generators for the power station and investigate a new cable from France to Guernsey. Mr Roffey warned that unless the States made a decision on the future location for Guernsey's inert waste, there would not be space on the reclaimed land at Longue Hogue for a new power station.

Who owns Guernsey power company?

The company is owned by the States of Guernsey with the Guernsey Competition and Regulatory Authorities (GCRA) regulating our core business of electricity generation, conveyance and supply. The Board is made up of three Executive Directors, five Non-Executive Directors and a Non-Executive Chair.

Will Guernsey Electricity install a community-scale solar array?

Guernsey Electricity are delighted to have worked with The Little Green Energy Company to install another vast community-scale solar array, this time on the roof of the newly reopened GROW Ltd headquarters.
