

Guernsey solar panel for home

A typical Guernsey home has at least one roof that faces east, south or west, or a flat roof that may be open to all the sun's orientations. From a few panels to four panels or more and typically 6 to 10 panels, you can maximise your generation by maximising your roof spaces.

The Princess Elizabeth Hospital and Guernsey Electricity are investigating installing solar panels, power from which would feed directly into the network. Vince Smith, head of energy solutions for GE, said the PEH offered a huge site, but the John Henry Court staff accommodation building looks most appropriate for a solar PV system.
