Is there a waiting list for solar panels in Guernsey?

Guernsey firms say there is now a six-month waiting list to have solar panels installed. Credit: ITV Channel Guernsey is seeing an increase in demand for solar panels to be installed on houses with homeowners looking for cheaper energy alternatives. There is now a six-month waiting list for islanders to have panels installed on their homes.

Could solar panels save Guernsey's 'mouth-watering' economy?

Jack Fletcher, from Renew Guernsey, told ITV News that widespread solar panel installation across Guernsey could not only produce greener energy, reducing the island's carbon footprint, but could also bring 'mouth-watering' economic benefits to the island.

Are solar panels a good idea for Guernsey?

Credit: St Martin's Constables Office A Guernsey parish hall has installed solar panels on its roof in an attempt to reduce costs for ratepayers. St Martin representative, Constable David Beausire, told ITV News that adding the panels has come at little cost to local people but could bring long-term benefits.

Will Guernsey be more sustainable and reduce maintenance costs?

The constables said they hoped the latest upgrade would make the parish 'more sustainable and reduce maintenance costs'. In 2020, the States of Guernsey set a target of a 57% reduction on 1990 emission levels by 2030 and agreed a 30-year energy strategy to reach net zero greenhouse gas emissions by 2050.

Will a Guernsey public toilet block run on renewable technology?

A Guernsey public toilet block is set to run on renewable technology as part of the island's commitment to reaching net zero targets. St Martin's Parish Hall and its adjoining outside toilet block have had solar panels installed as part of a push to move away from using electricity from the grid, officials said.

Are Islanders ready to install solar panels?

There is now a six-month waiting list for islanders to have panels installed on their homes. Solar power installation firm Little Green says it has seen a 30% increase in their total residential solar capacity installed in 2023 alone.
