Who is Efacec Power Solutions SGPS?

EFACEC Power Solutions SGPS,S.A. is a Portuguese energy,engineering and mobility company,comprising several subsidiaries in different international markets. Efacec group is one of the largest manufacturers in the fast-charging infrastructure market for electric vehicles.

What is Efacec Power Solutions?

Efacec Power Solutions is a company that offers various services,including R&D,training,engineering,and consultancy.

Why did Efacec change its name to EPS?

On August 14, 2014, we changed our name to Efacec Power Solutions, SA. (EPS). The constitution of EPS was part of the restructuring process that Efacec Capital, SGPS, S.A. started at the end of 2013, intending to align the corporate structure of the Efacec Group with the market segments addressed and the target geographies.

Who is Efacec?

Efacec already had experience in this business area, having been involved in the construction of subways in Bergen, Norway, Dublin, Ireland, and Porto, Portugal, being it that the European market corresponds to half its turnover. In October 2018, Efacec won one of the most important tenders in the area of level crossings in Europe.

How important is Efacec?

On August 12,2023,we celebrate the 75th anniversary of Efacec,a historic milestone that reinforces the strategic importance of a unique company in Portugal operating in sectors that structure society as a whole and of recognized importance in all the world geographies where it operates.

What makes EFACEC a good company?

Efacec is a company with a strong and sustained positioning on the international marketand a commitment to continuously innovating and investing in new technologies development. This is achieved with a team of highly motivated and qualified employees.

This is the 7 th order received by Efacec for the DEWA (Dubai Electricity and Water Authority) transmission network and marks the reinforcement of Efacec"s presence in the Middle East market. Efacec power transformers are in operation in all countries in the region, with emphasis on Core transformers and mobile substations.
