

Gurin energy Hong Kong

What does Gurin energy do?

At Gurin Energy, we develop solar, wind and energy storage projects to support Asia's sustainable development journey. Jindo Green Solar, located in the south of the country, will become one of South Korea's largest solar power plants.

Who owns Gurin energy?

Gurin Energy is owned by its management team and Infratil Ltd, a listed infrastructure investment company with established renewable energy platforms in the United States, Europe and Australia and a development pipeline of over 30GW. Infratil Ltd is managed by Morrison, a global infrastructure investment company.

Why should you choose Gurin energy?

Asia is blessed with excellent solar radiation, a largely underutilised source of clean, carbon free energy. Gurin Energy works closely with local communities to ensure that projects are developed in harmony with their surroundings.

Does Gurin energy offer equal opportunities?

Gurin Energy is committed to a diverse, equitable and inclusive workplace, and we provide equal opportunities for employment.

What does Gurin Energy's Board of directors do?

Our Board of Directors oversees Gurin Energy's strategy and governance, ensuring that the company progresses towards its goals, operates effectively and at the highest possible ESG standards.

Hong Kong meets all of its coal demand through imports. In 2021, 6.5 million tonnes of coal were imported. In recent years, Indonesia (81.9%) has become the largest supplier, followed by Russia (10.3%), Australia (5.3%) and Canada (2.4%). [4] Most of the energy generated by coal in Hong Kong is for electricity generation. Hong Kong currently has a total of about 5 GW of capacity for ...

8 Since opening its first espresso bar in Hong Kong in 2018, local coffee shop chain Coffeelin has been on a mission to enrich the city's coffee scene with a touch of Milanese-style caf culture. Launched a few months ago its latest location, Coffeelin Central, expands on the brand's coffee-to-cocktails concept with a space that conjures the retro vibes of a Milanese ...

Regular readers of Energy-Storage.news will likely be aware that grid-scale battery storage activity in Japan has shown early signs of being on an upward trend, with major Japanese players and foreign market entrants developing projects or forming various joint ventures (JVs) to seek out project opportunities.. However, announcements on the scale of the ...
