Brighten Haiti screens used solar panels to identify safe and productive systems that can be reused to electrify homes, schools, and hospitals in Haiti. We divert waste to illuminate Haiti. Our network of American solar installers and various solar panel manufacturers help us locate potential modules for our Solar ReUse Program.

The project is also being powered by 1,800 solar panels -- producing 100 percent of the hospital's energy needs during peak hours and bringing surplus energy back into Haiti's grid.
